

## Precision 3" Chuck 3 jaw

p/n: Chuck3in-3Jaw-SC with self-centering dependent action

p/n: Chuck3in-3Jaw-I with independent action

Each chuck comes with 3 inside and 3 outside jaws. Jaws are serialized for greater accuracy. Inside jaws actually clamp a rod, up to ~ 2", stronger than the outside jaws.

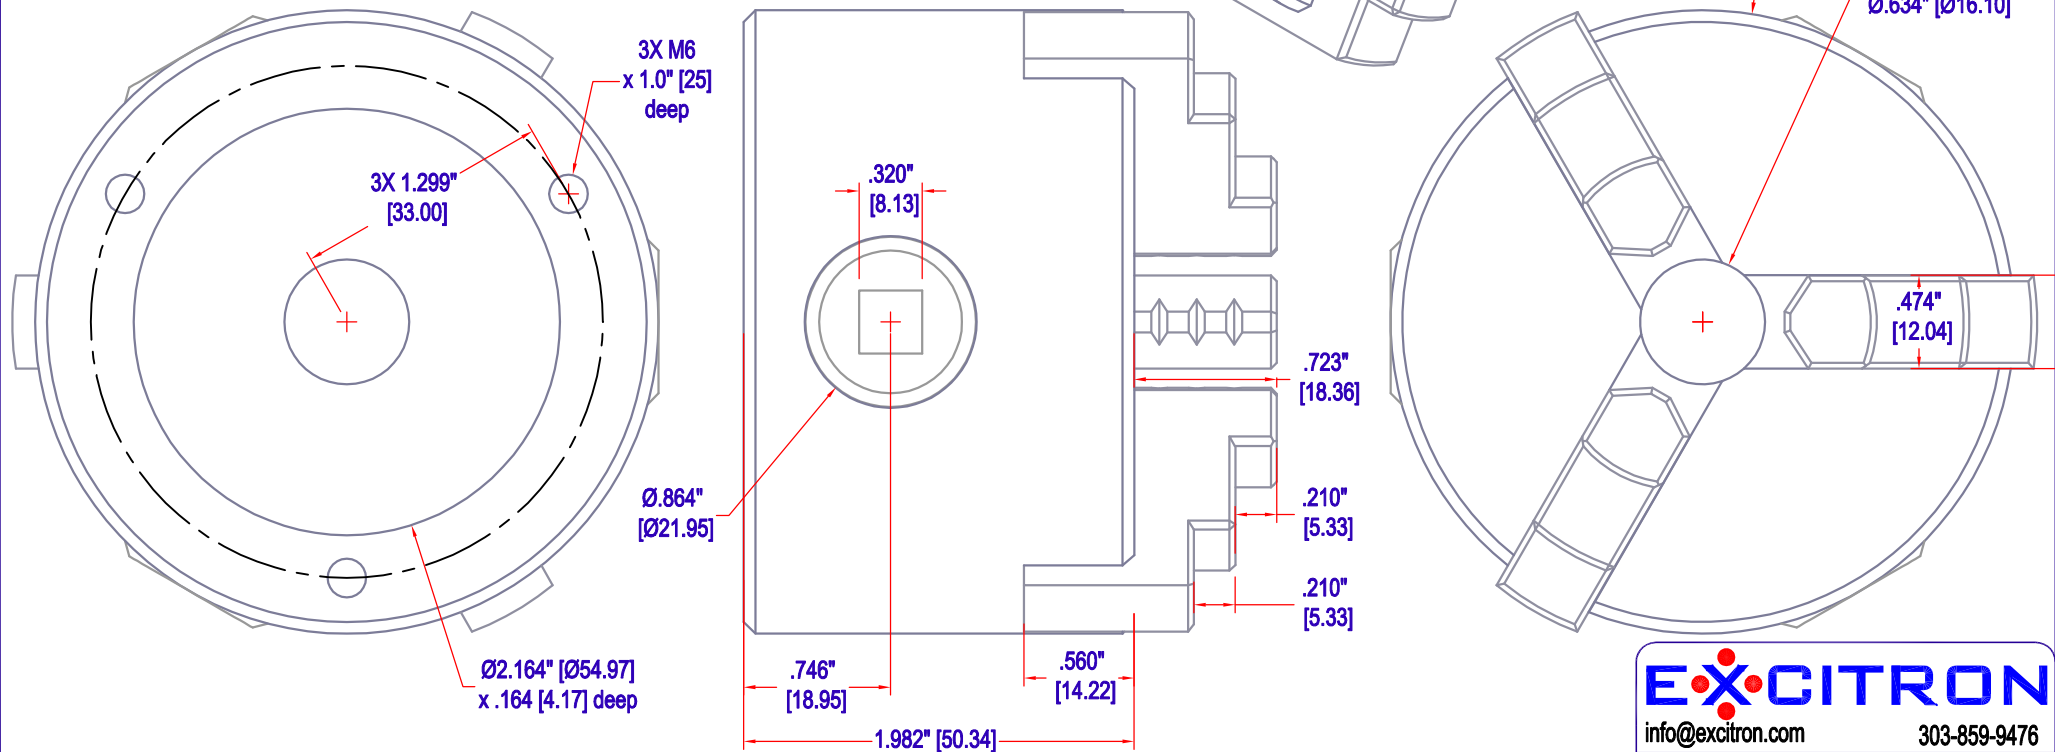

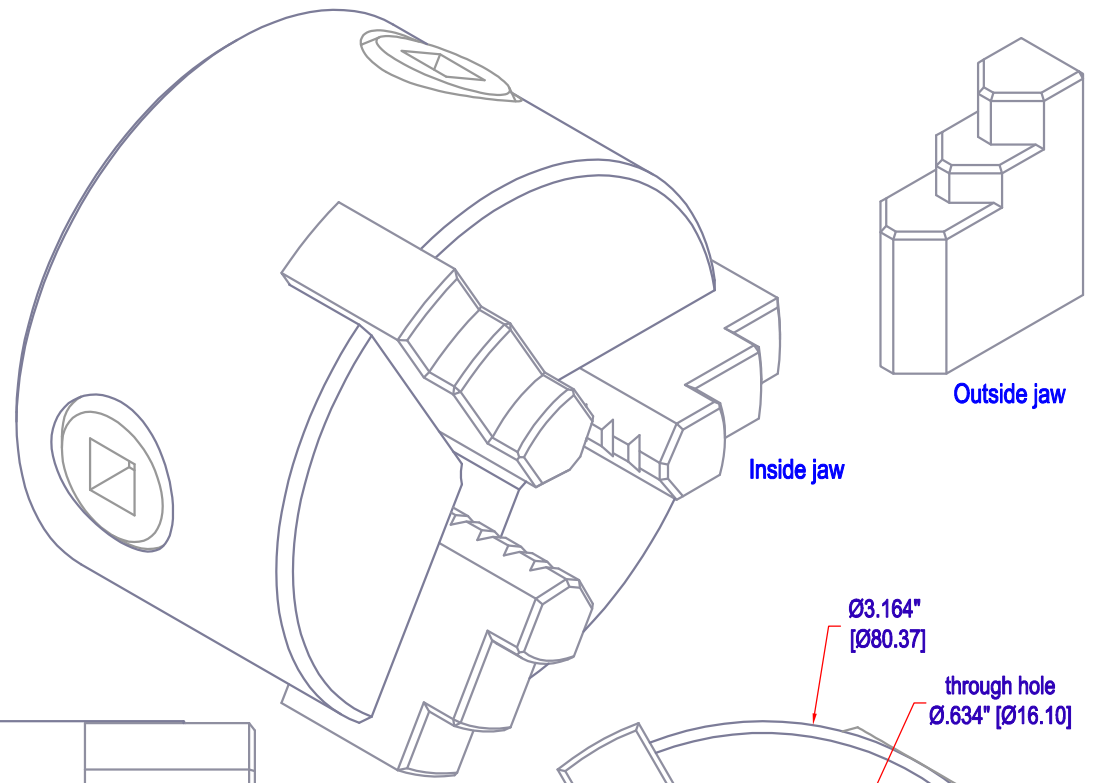

All surfaces are ground and hardened to HRC 58-62, except rear face plate.

Inside jaws clamping range is ~.07 to 3".

Outside jaws jamming range is ~1.3 to 5".

### Items included:

- T-handle square wrench
- Key ring with 10 metric hex keys: 1.5 to 10mm.
- 3 M6 screws.
