

- Items included:
- PS24-90W power supply with connector
  - RS232 6' cable and connector
  - Au I/O 9 wire cable open ended, for external control
  - Table slot mounting screws, washers, nuts (6 sets)
  - Neorene splash guard, .06" x 12" x 18"
  - Table base mounting hardware
  - 2 Base locking levers, not shown

MRT10 Motorized Rotary Table--see Au86 Series drawing for motor and controller details. Unit shown has 5:1 gear drive and precision ground 90:1 worm gears, 450:1 total ratio, and virtually zero backlash.

Theoretical Torque is 12,000 in-lb, practical torque is 3,600 in-lb, more than enough to mill using a Ø1.00 cutter through steel. Top speed of 10,000 motor half-steps/sec gives 3.3 rpm. Straight drive of 90:1 (16 rpm) also available, see [www.excitron.com](http://www.excitron.com) website. Weight is 82 pounds, ships in 2 boxes.

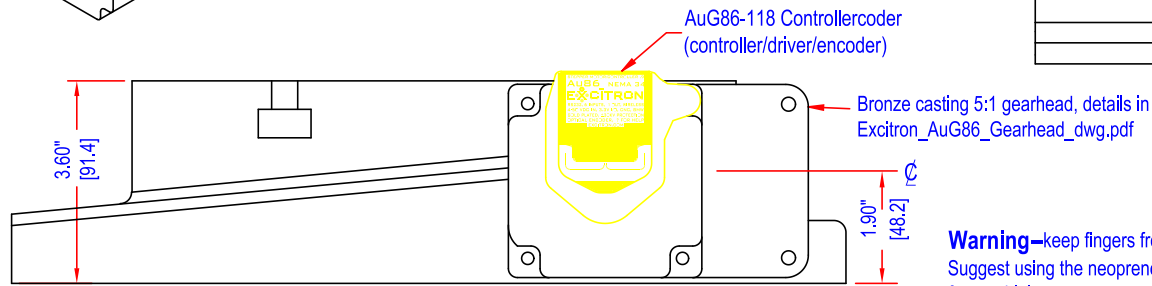

Ø1.175" locating hole [Ø28.23] x .24" deep  
 Ø.933" Morse #3 taper [Ø23.7]  
 Ø.796" bottom opening [Ø20.2]

Motor/Gearhead Assembly rotates 360° by loosening the two M5 set screws. Motor can be rotated for best controller and connector position, example:

Moly-lubricant zerk for filling reservoir  
 Lever to engage/disengage worm gear, allows free-wheeling of table.

Table top is flat to within .0005", and parallel to base by .0007"

**Warning**--keep fingers from rotating parts, injury may result. Suggest using the neoprene cover sheet when table is used for machining.
